

You can insert [polls](#) that have been previously created in **Polls** application directly in the editor.

1. With your mouse, click where in a text area you want to place the poll.
2. In the editor toolbar, click on the **Insert poll** button. A **Widget properties (Poll)** dialog appears.

3. Use the **Select** button to choose from the polls on the site.
4. Fill in the rest of the properties.

Check if user voted:

☒

5. **Save & Close.** The system places the poll.
6. **Save** the page you are editing.

Now, users will see poll in the text you placed it in.

Poll

How do you like our new website?

☐ Excellent

27

☐ Well done

17

☐ Nothing special

5

☐ Poor
